City of Half Moon Bay: Commercial Cannabis Activities Measure

Shall the measure, an ordinance to allow and regulate commercial, greenhouse nursery cultivation of immature cannabis plants on existing greenhouse sites in the City's A-1 (Agricultural/Exclusive Floriculture) Zoning District for cannabis nurseries that receive a license from the City Council and comply with specified standards, be adopted?

**Rebuttal Argument for the Primary Argument Against:**

We believe that regulating and controlling the legal cannabis industry on a local level will promote a Healthier, Safer, and Stronger Half Moon Bay.

**This measure would empower our farmers to grow IMMATURE CANNABIS PLANTS ONLY - nothing that could be consumed or processed into a consumable form, without further cultivation and processing. Nothing grown could ever pose a threat to our community. This ordinance would only support Half Moon Bay's historic agriculture community.**

More importantly, as reported by the Washington Post, common-sense community regulations reduce teen use of cannabis, alcohol, tobacco, and heroin.\* A more recent article concluded that "loosening cannabis laws has not led to large increases in the drug's use among young people, and in some cases none at all."\*\*

Without local regulation and the opportunity for local businesses to control all aspects of our local cannabis market, our community will be subject to the whims and market conditions of those around us.

We support a local, regulated cannabis industry within the context of what is right for our unique community, in order to support our local medical patients access safe, regulated cannabis products and local farmers access economic opportunities to keep our jobs, taxes, and decision-making local.

\*\*"Following marijuana legalization, teen drug use is down in Colorado" (Washington Post, December 11, 2017)

\*\*\*"Impact of marijuana legalization in California on teens uncertain" (EdSource, January 18, 2018)
