Rebuttal Against Brisbane Elementary School District \$27M Bond Issue: Measure

K

Budgets set priorities. Brisbane Elementary School District is saying every 7 educational dollar spent today is going to a higher priority than to "renovate 13 classrooms". 1

Do you agree? 3

24

The District doesn't think "campus security and safety improvements" are important, 11 because they are not in the current budget. 7

Do you agree? 3

The District doesn't think "technology improvements" are important, because they are 11 not in the current budget. 5

Do you agree? 3

40

Would you take out a 25-30-year loan to buy a personal computer? Nuts, right? But 17 that's what the District wants you pay for now and for decades to come. That technology 16 is going to be obsolete in 4-6 years, yet bond debt payments for it will be made for the 20 next 25-30 years. 4

57

The website: www.ed-data.org shows at least 470 students in the district, which means 12 this bond expense is \$54,446 per student, plus 25-30 years of interest, plus \$18,203 per 16 student in the annual school budget, which is 159% above the statewide average. 13

41

You deserved to know the full truth about the mountain of debt that is measure K.

If you value "renovating classrooms" and "campus security" and "technology 16 improvements" more than making principal and interest payments (as high as 12% 11 interest) for 25-30 years, vote NO on Measure K. 10

31

Remember, financing school projects via bond debt, routinely doubles the cost of the 13 project. And purchasing technology via bond debt is just nuts! 10

Just say No to more debt. Vote No on K. 10
