

MidPeninsula Regional Open Space District - Rebuttal ^{to argument against} ~~In Favor~~

The argument against Measure AA is the same one submitted against nearly every bond measure in our area. It's not specifically related to Measure AA. 25

Measure AA is for local conservation and environmental protection. Funds can't be taken by the State or used for any other purpose. 22

Independent citizen oversight and annual audits will ensure Measure AA funds are spent as promised. 15

Measure AA includes a specific Expenditure Plan describing exactly how funds will be spent. It's online at the Midpeninsula Regional Open Space District's website, and our campaign website: yesforopenspace.org. 25

Midpeninsula Regional Open Space District manages its budget efficiently, protecting more than 62,000 acres while leveraging significant outside funds. Regardless of future interest rates, the cost of Measure AA is limited to \$3.18 per \$100,000 of assessed value. 34

Protecting and conserving the Peninsula's remaining natural open space and redwood forests, while increasing local opportunities for walking, hiking and biking, is vital to our community and quality of life. It's the right thing to do for future generations. 39

Measure AA is urgently needed – and there is no other source of funding for these critical areas. Once our natural areas are gone, they are gone forever. 27

Please vote yes on Measure AA:

- Protect local redwood forests and remaining coastal lands
- Improve walking and hiking access for all, including the disabled, in protected areas and on local trail networks 22
- Protect local creeks and streams: the lifelines of our local water supply
- Protect local wildlife
- Protect scenic beauty and open space for future generations to enjoy. 26
