

Make our Main Street Bridge Safer
Vote "YES" on Measure E)

Opponents of Measure "E" are "stunned" that the City Council wants to upgrade the Main Street Bridge. They are "aghast" at the horrible specter of making the bridge wider and correcting its improper alignment. They are "livid" at the thought of southbound trucks and buses no longer crossing the centerline when entering the bridge, bicyclists safely in bike lanes, and pedestrians on wider, ADA compliant, walkways.

Now for the facts: For the past several years the bridge has scored a safety rating of 24 out of 100 points by Caltrans, due to its deteriorated condition and outdated design, making it among the worst in California. Since 2010 the Council has been pursuing plans to upgrade the bridge to modern safety standards. These efforts have resulted in the City receiving federal grant funds that will cover 88% of Project costs. Another grant is for construction of wider, wheelchair accessible, walkways. Three different engineering firms have stated that these improvements can be made without closing the bridge for significant periods, without altering the character of downtown and while minimizing impacts to nearby businesses.

In truth, Project opponents have no plans to fund and fix the bridge. Their sole objectives are obstruction and delay. That's why the City Council has placed both Measures E and F on the ballot. We bet voters will choose SAFETY and ACCESSIBILITY. Help us fix the bridge! Vote "YES" on Measure E and "NO" on Measure F!
