Project Title: Emergency Sweeney Ridge Pipeline Rehabilitation Project

Project Location: 1 Sweeney Ridge Trail, Pacifica, CA 94044

This project is located along the Sweeney Ridge Trail in the City of San Bruno, County of San Mateo, California, starting at the Sweeney Ridge Tank 7 and ending near the Sneath Lane Trail Parking.

Description of Nature, Purpose, and Beneficiaries of the Project:

This emergency project includes the rehabilitation of approximately 3,250 feet of 14-inch diameter steel water line with a "pull-in-place" liner. Of the total 3,250 feet, 2,040 feet are on San Francisco Public Utilities Commission (SFPUC) lands, and 1,210 feet are on Golden Gate National Recreation Area (GGNRA). This trenchless construction technology consists of a reinforced fold-and-form polyethylene (PE) liner pulled into the existing pipe. Three insertion pits of 6'x6' will be required to install the pull in liner, two within GGNRA lands and one within SFPUC lands.

The existing piping is aging and deteriorating with continued breaks and leaks, which have caused a recent landslide. This pipe rehabilitation project will eliminate the leaks with a new smooth inner coating of the pipe and will provide a safe and reliable pipeline with more than 50 additional years of service.
