Project Title: 3705 Haven Avenue Residential Project

MARK CHURCH, County Clerk
 By **KAMILLE SANTOS**
 Deputy Clerk

Project Applicant: 3705 Haven LLC

Project Location - Specific:

3705 Haven Ave, Menlo Park, CA 94025

Project Location - City: City of Menlo Park Project Location - County: San Mateo County

Description of Nature, Purpose and Beneficiaries of Project:

The project sponsor proposes to demolish the existing, 10,361-square foot commercial building and redevelop the project site with an eight-story (approximately 93 feet tall at the highest point), 112-unit residential apartment building with common and publicly accessible outdoor spaces and parking. Of the 112 units, 10 units would be affordable to very-low-income households and four units would be affordable to moderate-income households. To achieve the 112 proposed residential units, the project sponsor would use both the bonus-level development permitted by the City's Municipal Code as well as additional benefits provided under the State Density Bonus Law. The project would be designed to achieve Leadership in Energy and Environmental Design (LEED) Gold for Building Design and Construction (BD+C) and be an all-electric building.

Name of Public Agency Approving Project: City of Menlo Park

Name of Person or Agency Carrying Out Project: 3705 Haven LLC

Exempt Status: (check one):

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemption. State type and section number: _____
- Statutory Exemptions. State code number: PRC § 21083.3 and CEQA Guidelines § 15183

Reasons why project is exempt:

The Menlo Park City Council adopted an update to the Menlo Park General Plan that modified the Land Use and Circulation Elements (referred to herein as ConnectMenlo) and certified the ConnectMenlo EIR (SCH No. 2015062054) on November 29, 2016. The ConnectMenlo EIR is supplemented by the Housing Element Update (HEU) Subsequent Environmental Impact Report (SEIR) (SCH No. 2015062054), which analyzed up to 4,000 new residential units and accounted for pending pipeline projects and 65 accessory dwelling units (ADUs) within the eight-year planning period. The additional units analyzed in the HEU SEIR could be developed throughout the City, including the project site. The environmental impacts of the project were evaluated pursuant to CEQA Guidelines § 15183 and the analysis in the Community Plan Exemption Checklist found the project would not result in: impacts peculiar to the project or parcel, new significant impacts that were not previously analyzed in the ConnectMenlo EIR or HEU SEIR, new significant off-site impacts and cumulative impacts not previously analyzed in the prior EIRs, or a new significant effect (which was not known at the time the EIRs were certified) that would have a more severe adverse impact than discussed in the prior EIRs.
